

SOFT 408

SOFT 408 is a [Special Operations Fire Team](#) based on the [YSS Eucharis](#). Acting as the ship's primary power armor combat team, it is trained to independently achieve tactical success on the battlefield and facilitate the completion of mission objectives for any non-infantry specialists assigned to assist.

When included as part of a wider selection of personnel forming an away team, SOFT 408 is subordinate to that away team's leader. They are nonetheless expected to utilize their expertise and act semi-autonomously should a combat situation arise.
