

YSS Concordia

Concordia is a prototype [Sharie-class Battleship](#).

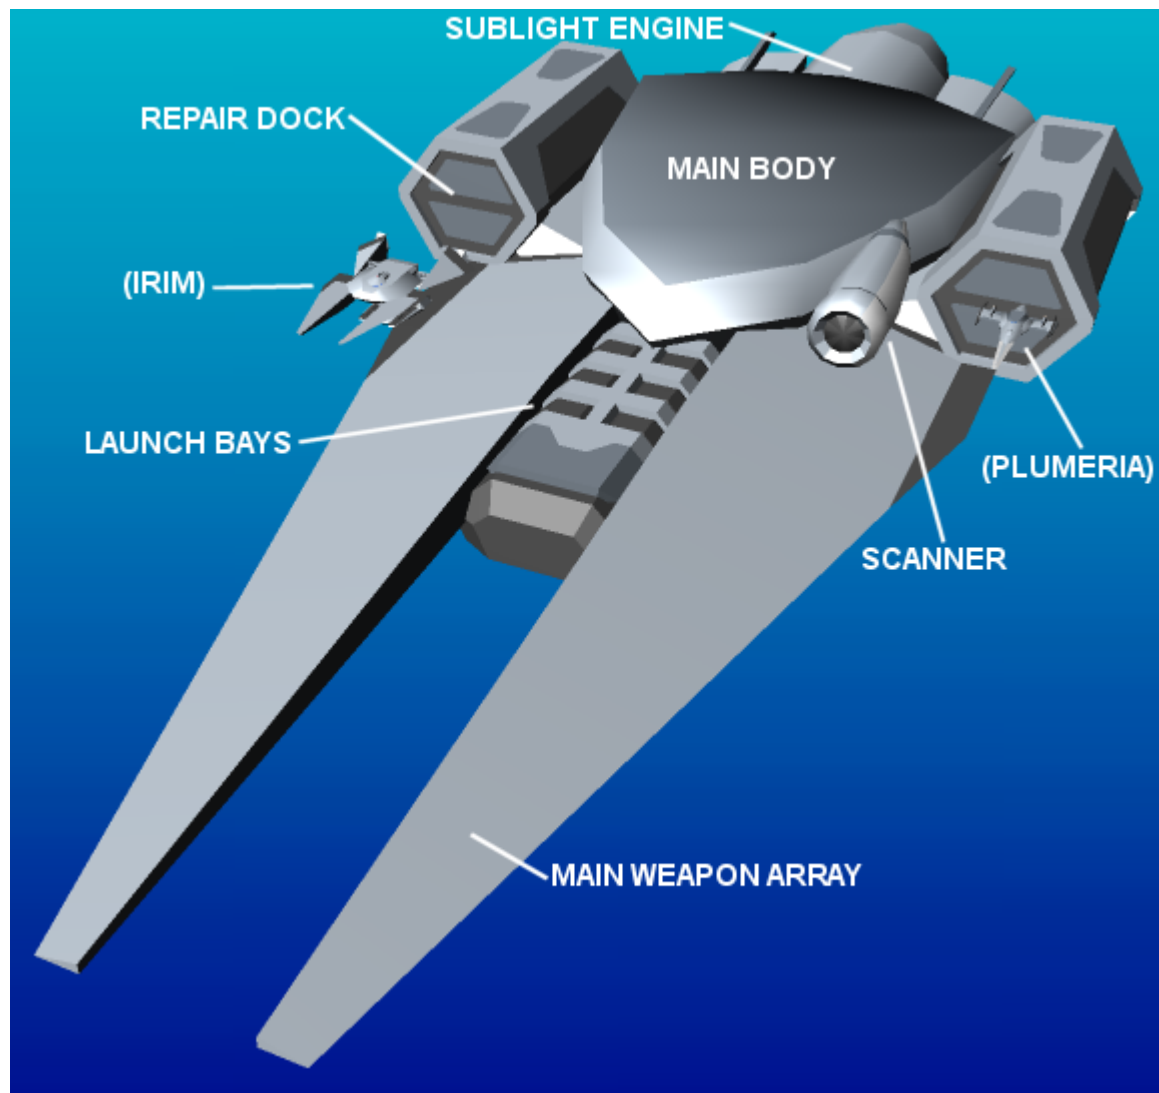

History

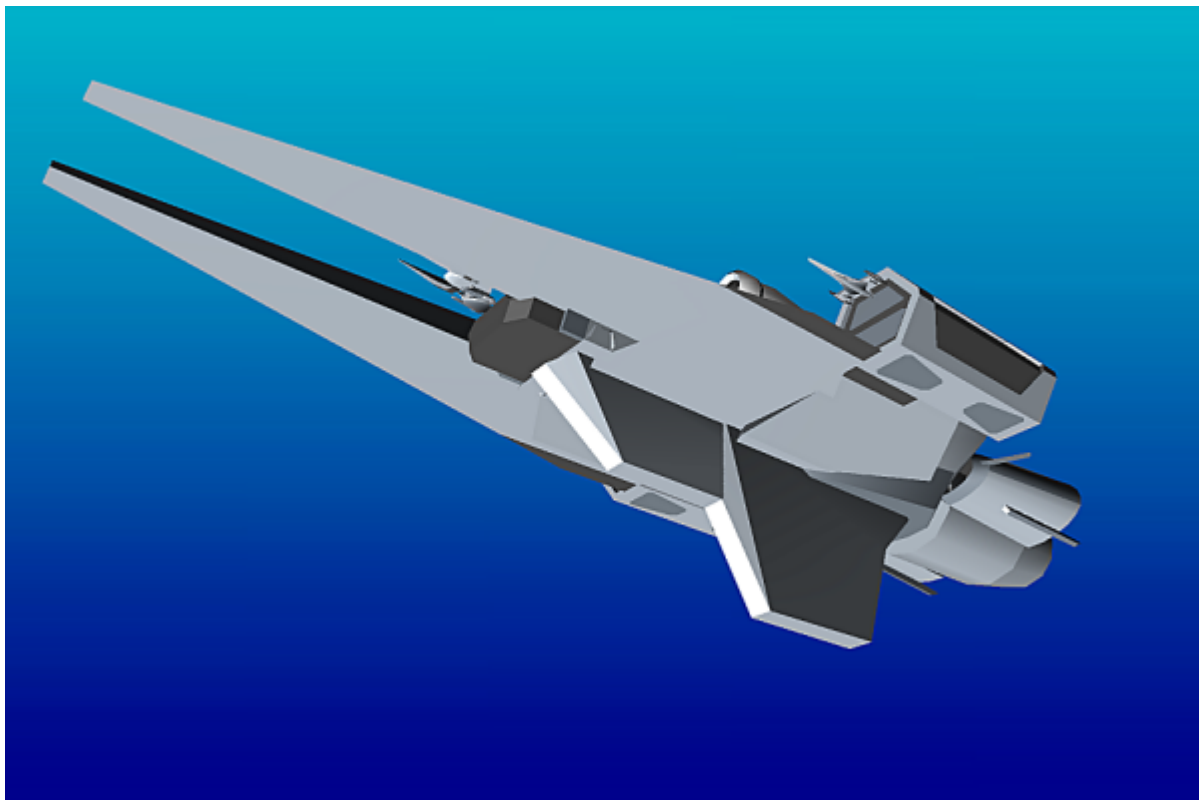

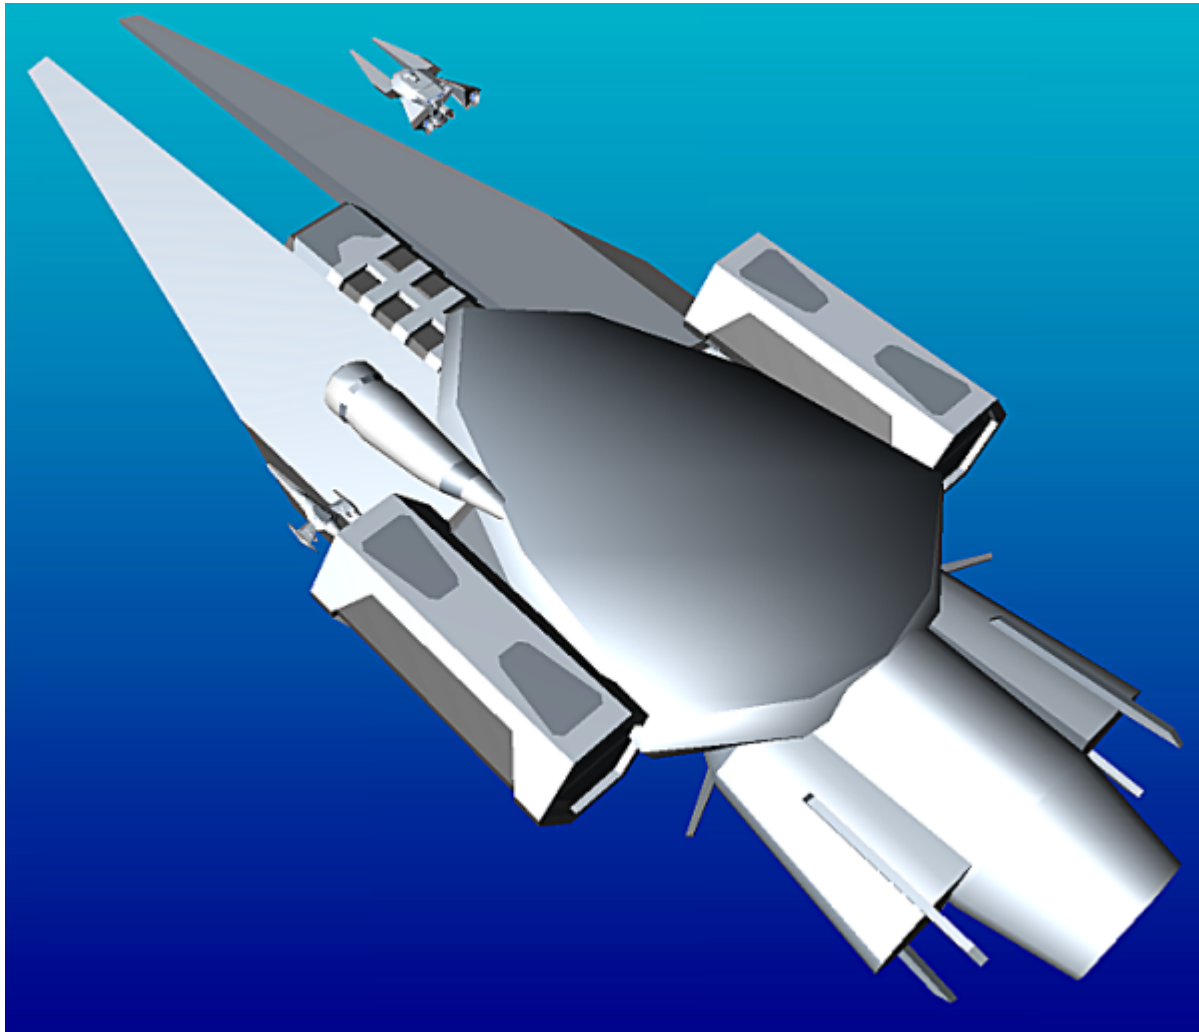

The YSS Concordia was built in [YE 30](#) to [YE 31](#).

After a decade of sitting around in disuse at the [Nataria Fleet Depot](#), the Concordia was transferred to [First Expeditionary Fleet](#) in [YE 41](#).

Design

It is notable for having less weaponry than the standard Sharie type and for having two starship repair bays. It also lacks the large “runway” deck above the main sublight engines.

OOC Notes

3D render by [Wes](#).
