

YSS Genus

YSS Genus, [YX-C1-0012](#), is a [Tansaku-class Science Vessel](#) built at the [Ketsurui Fleet Yards](#) on [Yamatai \(Planet\)](#) in [YE 31](#) for the [Scientific Studies Service \(SSS\)](#). It was upgraded to the 1B version in [YE 33](#)

About the Genus

History

- [YE 31](#) The *Genus* was dispatched as part of an expedition to [Sairen system](#). When the [Second Mishhuvurthyar War](#) broke out the expedition was ordered to return to the [Yamatai Star System](#). The *Genus* encountered engine problems and chose to land on an unexplored planet. Once on the planet the expedition chose to explore an extensive set of ruins they discovered from orbit.
- [YE 33](#) It was found on [AX-01](#) by the [YSS Aeon](#) with only Nakano Hikaru surviving. The rest of the compliment had been taken over by [minions](#) on an entity known as Intellicus. Once the Star Army personnel defeated the Intellicus they escorted the *Genus* to [Veronica](#), after that it proceeded to [Yamatai \(Planet\)](#). Upon arrival the ship was taken to [Ketsurui Fleet Yards](#) for repairs, and while there it was upgraded to the 1B version.
