

AS-7 Series Torpedo

The AS-7 series are a well-made and highly effective torpedo made for the [Star Army of Yamatai](#) by [WickedArms Industries](#) in [YE 26](#). Based largely on the [AS-5 series](#) of twenty-four-inch diameter heavy torpedoes, these large and fearsome weapons differ in their propulsion systems, significantly faster and longer-range, using the latest small-scale [CDD](#) technology to cram more power into the same-size space.

AS-7 torpedoes could be fired from:

- KFY Type 26 Torpedo Tubes (on the Yui 5 [Yui-class Scout](#))
- KFY Type 27 Torpedo Tubes (on the Yui 6 [Nozomi-class Scout](#)).
- KFY Ke-C3-W2902 Torpedo Tubes ([Himiko-class Light Escort](#))

The AS-7 series was largely replaced by the [Ke-Z1 Series Anti-Starship Torpedoes](#).
