

# Ke-M2-W3001 Shoulder-Mounted Aetheric Pulse Cannon

Created to compliment the Offensive Missile Pods and the Shoulder Mounted Gauss Cannon, the shoulder mounted pulse cannon was designed to offer the Mindy a viable shoulder option for mass space combat. Feeding directly off the Mindy's power reserves, the pulse cannon fires small aetheric pulses in quick succession though its compact nature lacks the proper focusing hardware to make it effective for atmospheric operations.

- Primary Purpose: Anti-Armour for space operations
- Secondary Purpose: Anti-Missile

- Damage: Tier 7 or Tier 8, Light Anti-Mecha or Medium Anti-Mecha (  : Staff needs to determine which)
- Range: Up to 294,000 miles (473,177 km) in space, 10 meters in atmosphere
- Rate of Fire: Rapid Pulse (three rounds a second)
- Payload Effectively unlimited so long as the Mindy armor has power.
