

Nekovalkyrja Burst Automatic Rifle

Producer Information

Designer: Ketsurui Zaibatsu Manufacturer: Ketsurui Zaibatsu (Suggested) Price: 2,000 KS Individual Component Costs:

- KZ-BR-100 Battery Pack: 200 KS
- Human grip: 30 KS

Nomenclature Information

- Name: Nekovalkyrja Burst Automatic Rifle
- Type: Scalar/energy pulse
- Model: Type 29
- Role: Assault rifle
- Length: 395 x 107 x 34 mm
- Mass: 1,200 g

Discharge Information

- Projection/ammo type: Scalar energy blast.
- Firing Mechanism: A charge is placed into the weapon's "chamber," and upon pulling the trigger, the charge fires in a beam shape.
- Beam Diameter: 1 cm.
- Beam Arc: 0 degree arc.
- Effective Range 450 m normal, 50 for burst/heavy.
- Maximum Range: 600 m.
- Minimum Range: 0 m.
- Muzzle Velocity: Speed of electricity.
- Muzzle Blast: 9-cm-wide flash upon firing, sound not above 20 dB (normal, stun). Burst and Heavy are sizeably bigger.
- Firing Mode(s): Stun/Single, Normal/Single, Normal/Auto, Burst/Single, Burst/Auto, Heavy.
- Recoil: Mild recoil. Can be fired fully automatic with little degradation of accuracy.

Damage Description: Depends on setting. Burst does not have armor-killing punch, but covers more ground without going to heavy. Heavy takes out an entire armored car. Automatic takes out an armored car door.

Damage Rating (Version 3):

- Stun: Tier 1 (Light Anti-Personnel, Stun)
- Normal (Single/Auto): Tier 2 (Medium Anti-Personnel)
- Burst (Single/Auto): Tier 3 (Heavy Anti-Personnel)
- Heavy: Tier 4 (Light Anti-Armor)

Ammo Description:

- Name: BR-100 battery pack.
- Visual Description: Battery pack fits into front of weapon and acts as a foregrip. Remaining energy counter can be found in the same place as the Type 28 SMG, which is just behind the carry handle.
- Charge:
 - Normal: 200
 - Burst: 40

- Heavy: 20.

Weapon Mechanisms

- Safety: Safety button above trigger, right side.
- Fire mode selector: Left side, selector switch above grip (Stun, Normal, Burst, Heavy).
- Weapon Sight: Iron night sights between posts of carry handle.
- Attachment Hard points: N/A.
- Really cool built in thingy: Buttons for laser and light in front of trigger.

Maintenance Information

Field Maintenance Procedure: The BAR's maintenance is similar to that of the [Nekovalkyrja Service Pistol, Type 28](#). Replaceable Parts and components: The battery and extendable stock are the main replaceable parts. Of course, the pistol grip can be replaced with any Type 28 NSP stock.

History

An attempt to fill the void the [GP-12 Phased Pulse Rifle](#) left behind. The weapon, however, is expensive to produce, and when the GP-12 was brought back into service, the BAR was relegated to rear-echelon ships. A powerful if slightly outdated weapon, it uses the frame of the [Type 28A Nekovalkyrja Service Pistol](#).
