

# Gensou System

Gensou is a star system located in the [Yamatai Star Empire](#).

Gensou means “illusion” in [Yamataigo](#) (邪馬台語).

## The Flag

The flag of the Gensou System:

## A Frozen Future

The system was first mapped and explored by the [Fifth Expeditionary Fleet](#) in [YE 29](#). Like most systems in the region, it was briefly part of the [United Outer Colonies](#), a short-lived separatist nation that was reabsorbed into the [Yamatai Star Empire](#) in [YE 33](#) after they suffered unrecoverable losses to the [NMX](#) in the [Second Mishhuvurthyar War](#). They were shared in an uneasy partnership with the [Lorath Matriarchy](#) until [YE 39](#).

During the short time, the system was part of the [United Outer Colonies](#), through a cooperative effort with the [Lorath Matriarchy](#) there was a large scale effort to terraform some of the worlds into inhabitable planets. The project remained idyllic, but the terraforming equipment was left active, the project was eventually declared a failure by the [Star Army of Yamatai](#) in [YE 42](#) by the [First Expeditionary Fleet](#).

With further evaluation, it was determined that the ice worlds would be better colonized using dome enclosed colonies and the [Yugumo Corporation](#) intends to establish resource extraction colonies in the system before the end of [YE 43](#).

Due to the strategic value of the system and its proximity to other core systems like [Jiyuu System](#), the [Star Army of Yamatai](#) decided to place what would be the [First Expeditionary Fleet](#) third Bastion [Star](#)

[Army Base](#) in the system in [YE 42](#).

## A Cold Lonely Frontier

### The Gensou Star

The heart of a cold and lonely system with the potential to be a resource asset in the future.

The Gensou Star	
System Registry	Motoyoshi-L-032 (G-1)
Star Name	Gensou
Type	Red Dwarf MV Spectral Class
Surface Temperature	2,500 K
Average Mass (Yamatai Comparison)	0.1
Luminosity	0.00179xsol
Number of Planets	3

### The N311 (Gensou Belt)

The Gensou Belt is a massive belt of leftover rocks from the formation of the Gensou System, it is a treacherous field of rocky debris varying in size from the size of a fist, to the size of a small moon. There is always action in the belt, one tumbles into another, a predestined course set in motion decades or centuries before. Shifting gravitational fields rule with a chaotic hand over all things rock and metal. To most it is a navigational hazard, to the brave, it is a mine of opportunity.

Rich in deposits of [iron](#), [nickle](#), [iridium](#), [pallidium](#), [gold](#), and countless other rare elements not found in high concentrations on terrestrial worlds such as [magnesium](#), [osmium](#), [ruthenium](#), [rhodium](#) and [platinum](#).

The [Yugumo Corporation](#) has established a claim to begin mining in the Gensou Belt before [YE 44](#).

### The Gensou Planets

The planets of the Gensou System are listed below.

- [Hyoutan](#) (Ice Giant System)
- [Gensou I](#)
- [Aegu](#) (Ice Giant System)

# The Presence of the Star Army of Yamatai

In [YE 42](#), the [First Expeditionary Fleet](#) moved [Legacy Bastion \(Katsuko no Iori\)](#) into the system. Legacy Bastion serves the following roles:

- Shipyard
- Defense Base (Local Region: [Yugumo Cluster](#))
- Future base of operations for planned colonization and resource extraction ventures in the system.
- [Star Army of Yamatai](#) City.

The [Star Army of Yamatai](#) has several "[Guriddo](#)" [Defense System](#) in the system, and it is regularly patrolled by the [First Expeditionary Fleet](#) and the [Tenth Fleet](#).

## Exports and Trade

The Gensou System is rich in natural resources. Currently, it has no exports or trade, however, the system is on the [Yugumo Corporation](#) plans for the future colony and facility expansion.

## More Historical Data

More about this system's history.

- In early [YE 30](#), the [Star Army Intelligence](#) ship, the [YC-28](#) spotted a [Sfrarabla Mishhuvurthyar Nougift](#) battlegroup moving in this system. (See: [YC 28 - SAINT Fact Finding Trouble](#).)
- [Alexander Romani](#) was named the representative in the [UOC Elected Assembly](#) for the Gensou System in [YE 30](#). (See: [UOC Assembly Positions](#).)
- At the [International Relations Conference of YE 38](#), [Ik'hin Nibbi "Middlewoman" New Tur'lista](#), a representative of the [Lorath Matriarchy](#) deligation claimed the Gensou System as part of the [Lorath Matriarchy](#) Territories. (See: [IRC YE 38: Day 1](#).)
- In [YE 34](#), Imperial Premier of the [Yamatai Star Empire](#), [Ketsurui Yuumi](#) onboard Priemer One waited in the system to meet with the [Lorath Matriarchy](#) to present a treaty, there was no response from the [Lorath Matriarchy](#). (See: [Yamatai Treaty Talks: First Round](#) ).
