

# Vicky

Vicky (originally named Victoria) is one of three star systems in the [Samurai Sector](#). Travel in the system is restricted to authorized ships of the [Star Army of Yamatai](#). About 50,000 [Nekovalkyrja](#) live on Vicky.

Vicky is home to a [Star Army Intelligence](#) base on its habitable world, where black-hulled starships stop to resupply between long trips into [Sfrarabla Mishhuvurthyar Xhrafuklurp \(SMX\)](#)-controlled space. The planet is cold and icy. Living in underground bunkers is a garrison of [Nekovalkyrja](#). Most of these “Snowy Nekos” come from the local [Mass Cloning Facility](#) and have chalky skin, blond or platinum blond hair, and light blue-gray eyes. Typical dress for the “Snowy Nekos” is a white jumpsuit, fur boots and hooded jackets, and when outside, ski masks, and goggles.

## History

The [Yamatai Star Empire](#) placed global communications networks of [Emrys Satellites](#) into orbit of all of the system's terrestrial worlds in [YE 36](#).

In [YE 41](#), [Jinja Emi](#) was assigned as commander of the SAINT base.

The [New Vicky System](#) is named after this star system due to their similar icy worlds.

## People

Vicky's population is almost exclusively composed of Star Army soldiers, mostly in the intelligence field, so you will see a lot of uniforms with black panels. This also means the population tends to be Nekovalkyrja and working-age Minkan, with males only making around a tenth of the population.
