

# Kuvexian Invasion of YE 41

The Kuvexian Invasion of YE 41 was a major invasion of the [Kikyo Sector](#) in late [YE 41](#) that was part of the [Kuvexian War](#). Hundreds of thousands of starships, consisting of a combination of military, corporate, mercenary, and pirate forces from the [Interstellar Kingdom Of Kuvexia](#) and its allies planned a simultaneous incursion on the [Yamatai Star Empire](#). The invasion's massive scale overwhelmed the [Star Army of Yamatai](#), which began losing star systems to their advance, starting with the [Himiko System](#) in the [Ketsurui Military Sector](#) (see [Fall Of Himiko](#)). Additionally, space piracy began became a major concern throughout the sector.

## History

In the early days of the invasion, Kuvexians conquered [UX-11](#), [UX-13](#), [UX-15](#), [UX-16](#), [UX-17](#), [New Vicky \(UX-19\)](#), [UX-20](#), [UX-21](#), and [UX-22](#). This was quickly followed by [Kazumi](#), [UX-1](#), [UX-3](#), [Sbuhfaba](#), [Moriva](#), [Nellrun](#), and [Kimirthro](#). The invaders began to occupy many unclaimed systems as well, such as [Fhasho](#), [Hukka](#), [Nougfran](#), and [Splrug](#).

The [Democratic Imperium of Nepleslia](#) declared War on the [Kuvexian](#) shortly after they battled the [Elefirn](#) (a subjugated species), under suspicions of an attack on the [Nepleslian Colonial Expanse](#).

The first major battle of the Invasion of YE 41 was the [Battle of Hanako's Star](#), in which the Star Army forces were crushed by the Kuvexians much larger fleets (Kuvexia fielded 14 times as many ships in this case). This resulted in the conquest of [Hanako's World](#).

Near the end of YE 41, during the [Year-End Holiday](#), mercenaries working for Kuvexia attacked [Fort Jal](#) on Miu I in the [Miu star system](#) and killed everyone there. The Miu system was lost.

The Invasion of YE 41 set the stage for the [Kuvexian Advance of YE 42](#).
