

Kaiserlich F&E Headquarters

WIP: This article is a work in progress.

Orbiting Jaspis I at an orbital radius of 2,043,421 kilometers, Kaiserlich F&E Headquarters is the only station located between the Prime Asteroid Belt and Jaspis III. Because of this, not only is Kaiserlich F&E the primary research center of the [Abwehran Star Empire](#), but it is also responsible for feeding miners and individuals around Jaspis I and Jaspis II.

Offices

A [Harbor-class Trade Station](#) has 1000 spaces for offices and facilities for the purpose of representing their specific organization. The maximum amount of slots that can be rented by civilian companies is 50 slots while the maximum amount of slots available for embassies is 10 slots.

The [Civilian Space Administration Agency](#) automatically has 500 slots for the purpose of ship docks and maintenance, which doesn't count to the 1000 spaces for offices and facilities.

Unlike other [Harbor-class Trade Stations](#), Kaiserlich F&E has taken up 100 office spaces for itself for the purpose of researcher offices and another 500 for other laboratories. This leaves around 500 spaces for other companies / embassies and a lot more competition for them.

Organization	Facility Type	Amount of Slots Rented
Civilian Space Administration Agency	Ship Maintenance and Dock Rental	500
Kaiserlich F&E	Offices and Research Laboratories	600
Total remaining Slots:	500	

Businesses / Locations of Note

A [Harbor-class Trade Station](#) has 2000 slots available for local businesses and establishments for the purpose of retail and recreation. The maximum amount of slots available for any business owner / franchise is 100 slots¹⁾.

Business / Firm	Facility Type	Amount of Slots Rented
Total remaining Slots:	2000	

Nature Parks

There are 19 Nature Parks located in various locations around F&E Headquarters. Each Nature Park represents a specific biome from [Abwehr](#):

- 6 [Standard Park](#)

- 2 [Forest Park](#)
- 2 [Oasis Park](#)
- 2 [Alpine Park](#)
- 2 [Water Park](#)
- 2 [Tundra Park](#)

Research Laboratories

Replacing the entire expanse that would have been taken up by the standard Amusement Park and more, the Research Laboratories section of Kaiserlich F&E Headquarters houses the more dangerous experiments and is located closer to the hull than laboratories found in the commercial sectors. Since they are located closer to the hull, every laboratory has the ability to be ejected into space in order to protect the rest of the station.

Kaiserlich Agriculture

Kaiserlich Agriculture is divided into two different sections: the Agricultural Research Section and the Production Section.

The Agricultural Research section only takes up 5% of the Agriculture Sector of the station and is sealed from the rest of the agriculture sector to prevent contamination. Here, new methods of seeding, growing, harvesting, and livestock breeding are tested thoroughly. In this manner, methods that increase food production may be field tested in order to determine side effects and issues safely away from fragile ecosystems on planets.

The Production Section encompasses the remaining 95% of the Agriculture Sector and produces food for both Kaiserlich F&E Headquarters, Jaspis I, Jaspis II, and any commercial vessels willing to purchase at market price.

Research Gravball Arena

A moderate-sized arena capable of holding 15,000 individuals, Research Gravball Arena is mostly used for zero-g experiments during the off-season. Any team wishing to practice here must schedule around experiment time slots. Once the season begins, however, zero-g experiments are placed on hold for the the F&E *Professors*, the home team.

Research Gravball Arena also has a number of gymnasiums for sports science experiments as well as the usual changing rooms.

Kaiserlich Recreation Park

Unlike the Nature Parks, Kaiserlich Recreation Park is an area that contains numerous sport fields from

many cultures in the known galaxy. Kaiserlich Recreation Park has fields and spaces for the following sports:

Non-Abwehran Sports:

- Baseball
- Soccer
- *Space for Future Sports*

Abwehran Sports:

- *Space for Future Sports*

OOC Notes

Individuals are free to add new businesses or offices to the station as long as they receive permission from the Abwehran Faction Manager, [Abwehran Commander](#). Please contact him either by

Forum Private Message or via the StarArmy IRC Channel.
